FIRST AID ASSISTANCE

Ingestion:

- Do NOT administer anything orally.
- In case of Ingestion: Do **NOT** induce vomiting.
- Keep the patient at rest.
- Maintain the body temperature.
- Control breathing, if necessary, by artificial respiration.
- If the person is unconscious, lay them on their side, with the head lower than the body and knees half-flexed.
- Move the victim to a hospital and, whenever possible, take the label of the bottle.

Contact with skin:

- Remove the person from the contaminated area.
- Remove stained clothing immediately.
- Wash the skin with plenty of soap and water, without rubbing.

Contact with eyes:

- Wash eyes with plenty of water for at least 15 minutes. Remove contact lenses.

Treatment advice:

- In case of ingestion, an endoscope is recommended.
- Monitor glycaemia (blood glucose) and keturia (urine ketone) levels.
- Contraindications: Syrup of ipecac.
- Symptomatic treatment.

FIRE PREVENTION MEASURES

Recommended extinguishing methods:

- Foam, chemical powder, CO₂, earth.
- In cases of fire involving electrical equipment, the use of dry chemical powder is recommended, given its non-conductivity.

Unsuitable extinguishing methods:

- Do not use pressurised water.

Hazardous decomposition:

- Under open fire conditions, the product may emit irritating hydrochloric acid (HCl) hydrogen cyanide (HCN) and carbon monoxide (CO) vapours.

Special protective equipment for fire-fighters:

- Always wear suitable protective clothing and self-contained breathing equipment.

ACCIDENTAL RELEASE MEASURES:

- Extinguish all heat and ignition sources.
- Do not smoke.
- Avoid sparks and build-up of static electricity.
- Ensure proper ventilation.

Personal precautions:

- Avoid breathing any fumes, avoid contact with eyes and skin.
- Use to the degree the exposure requires: safety glasses with side protection, PVC protective clothing, nitrile gloves, knee-high polypropylene or butyl rubber safety boots, mask with organic vapour cartridge and NPF 400 filter and self-contained breathing equipment.

Environmental protection precautions:

- Do not pour product in drains or waterways.
- Dispose of in accordance with local regulations.

Cleaning methods for spills:

On the ground:

- Isolate the area and absorb spill immediately with sand, talc or earth. Do not use combustible materials such as sawdust or peat.
- Collect in containers suitable for their subsequent disposal in accordance with local regulations.
- If the spill was directly on to non-asphalted/constructed ground, dig up and collect the portion of the ground where the spill took place.

In the water:

- If possible, recover through pumping (manual or fireproof pump).
 - If the spill is significant, inform the environmental and civil protection agencies. Risk of toxicity. Potential risk of explosion.
